

How...

do you pay your mortgage...

...when sick pay runs out?

"To give my family the gift of time is something that I'll never be able to repay. This was the hardest time in my life and to have my employer and the charity support me financially relieved all the pressure. As a family we have lost our Daisy but we will never lose the memories of her last few months. For this there are no words of gratitude that will ever feel enough."

> MATHEW CLOW

EFP

Employee & Family Assistance Programme

What if...

your Mum was sick...

...and couldn't afford to pay the rent?

"I've been caring for my mum on her cancer journey for the last two years. Although there are a lot of cancer charities willing to provide emotional support and nurses, there wasn't any support for me to help my mum pay the household bills when she could no longer work."

> JACK TERRINS

ASP

Apprentice Support Programme

Do you...

provide 24/7 care...

...for someone in your family?

"Although I did not see myself as a carer, I was just doing what I'd done for the last 38 years to support my child. Thanks to the Charity the respite holiday was probably the turning point in making sure I was able to continue."

> LINDA NORTHCOTT

PSP

Pensioner Support Programme

What if...

you couldn't get around...

...your house?

"Having the electrical equipment Edmundson's have supplied for Max is fantastic. I would not have known where to start. It has worked really well between the electrician & Edmundson's. We thank you from the bottom of our hearts."

Employee and Family Support Programme (EFP)

Designed to make an immediate and sustainable positive impact, the Employee and Family Support Programme is our flagship programme, developed specifically for the working heartland of our industry. Supporting our industry businesses, individuals and their families.

Apprentice Support Programme (ASP)

Supporting the industry through education is a key focus for the Electrical Industries. The Apprentice Support Programme is designed to help young people deal with some of the key challenges that affect them as they embark on their career. We provide financial grants and practical assistance to apprentices and their families.

Pensioner Support Programme (PSP)

Working seamlessly with a range of professional charitable and service providers across a broad spectrum, the Pensioner Support Programme is an enabler for a safer, healthier and more independent retired life. The Charity can provide a hand up with financial grants and assistance services.

Practical Participation Programme (PPP)

The Practical Participation Programme harnesses specialist skills in terms of time, equipment and materials - providing practical help where it is needed most. We believe that for every opportunity to give someone in need a hand-up there is a solution.

An Industry Charity for Industry People
